

## Hassle-Free Parking

Your visitors want one thing above all: to get to where they are going. Provide them with the freedom to concentrate on the essentials instead of parking.

Whether office building or international hotel chain, whether complex requirements of a hospital or comprehensive solutions for universities – SKIDATA makes access management, parking and payment with personalized data media convenient and customer-friendly.

# SKIDATA - Getting There Was Never So Easy

Welcome customers, employees and guests with comfortable parking options and expand your revenue sources. Hotel customers receive one bill for their accommodation and parking expenses. Employees only need a single card for access management and parking. Use the proven solutions from SKIDATA to meet state-of-the-art parking management requirements with, for example, hands-free parking via RFID chip and integrated security solutions. With SKIDATA parking is easy.

## Your Benefits - Public & Private Buildings

**Exclusive Parking** for residents, visitors and employees

**Integration of third-party data media** such as employee IDs

**Connect existing solutions** such as door access control and software

**Easy to operate** the system locally or remotely

## Your Benefits - Hotels

Parking management **additional revenue source**

**Combined bill** for hotel and parking

Hotel cards as **multi-purpose data media** for access to parking and hotel

**Separate fee scale** for non-hotel guests
